CURRICULUM VITAE

Géraldine Jeckeln, Ph.D.

Professional Profile

Email: geraldine.jeckeln@utdallas.edu
Research areas: Face identification; other-race effect; perceptual confidence; collaborative decision-making; security and forensic implications
ORCID: 0000-0001-7248-0144
Citizenship: Canada and United States

My work contributes to the development and evaluation of methods used to assess accuracy, bias, and confidence in face identification. I study race bias and associated metacognitive judgments. I also examine human–machine collaboration strategies aimed at reducing error in cross-race identification, with an emphasis on human oversight and accountable decision-making in applied contexts. In collaboration with researchers at the U.S. National Institute of Standards and Technology, I design and validate tests and disseminate findings to government and practitioner audiences involved in forensic identification contexts.

Academic Positions Held

2024 – Present **Postdoctoral Research Associate**
Face Perception Research Lab, The University of Texas at Dallas

2016 – 2024 **Graduate Research Assistant**
Face Perception Research Lab, The University of Texas at Dallas

Education

2019 – 2024 **Ph.D., Cognition and Neuroscience**
The University of Texas at Dallas, Richardson, TX
Supervisor: Dr. Alice J. O'Toole
Dissertation: *Examining confidence for same-race and other-race face-matching decisions*

2016 – 2018 **M.S., Applied Cognition and Neuroscience**
The University of Texas at Dallas, Richardson, TX
Supervisor: Dr. Alice J. O'Toole

2012 – 2015 **B.A., Honours Psychology (Distinction)**
Concordia University, Montréal, Québec, Canada
Supervisor: Dr. Rick Gurnsey
Honours Thesis: *Examining stimulus magnification for reducing illusory face distortions in peripheral vision*

2010 – 2012 **Diplôme d'études collégiales (DEC), Social Science (Mathematics Profile)**
John Abbott College, Sainte-Anne-de-Bellevue, Québec, Canada

Student Mentorship & Research Leadership

2020 – Present **Research Mentor and Supervisor**
Face Perception and Research Lab, UT Dallas

Mentorship focus: Behavioral experiment design and implementation; Statistical analysis and visualization (R, Python); Scientific writing and peer-reviewed publication; Use of deep convolutional neural networks as computational models to evaluate face-processing performance and compare human and machine performance.

Graduate Mentorship

- AP — Ph.D., Cognition and Neuroscience (2023–Present)
- PM — M.S., Computer Science (2022–2024)

Undergraduate Mentorship

- SY — B.S., Psychology (2021–2023)
- KM — B.A., Criminology and Criminal Justice (2021–2023)
- SM — B.S., Computer Science (2020–2022)

Teaching Experience

Summer 2026 **Cognitive Psychology Instructor (Scheduled)**
Department of Psychology, The University of Texas at Dallas

Professional Service

2023-2025 **Ad hoc Reviewer** Visual Cognition; Memory; Cognitive Research: Principles and Implications; Acta Psychologica; Applied Cognitive Psychology

Knowledge Mobilization, Training & Public Engagement

2014 & 2015 **Elementary School Presenter**
Brain Awareness Week, McGill University
Developed interactive neuroscience outreach activities for elementary students in the Greater Montréal area. Activities were delivered in French.
